## UNITED STATES SDG Index and Dashboards Report 2018

Clicking on a State will open a dedicated page for that State. (50 x State pages)

Clicking on an SDG squares here will open a dedicated page for that SDG (15 x SDG pages)

There are only 15 of these SDG pages, not 17, because there is no data for SDGs 14 and 17 - these 2 will need a rollover message only

# 50 x State dashboard pages

State name:

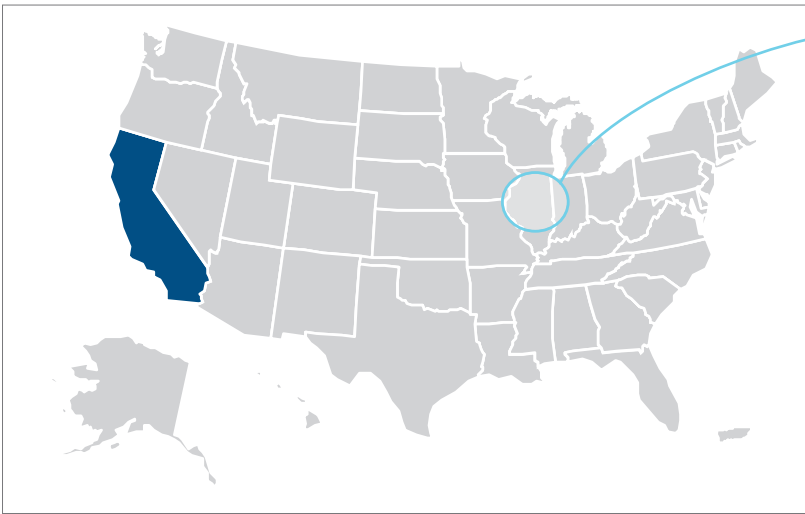

These pages will be similar to the country pages in the global report, although we'd like a simple map at the top identifying the state.

We'd like a bar chart here similar to the one in the global report, showing score and rank for the 50 states.

Instead of the separate polar chart and SDG dashboard, we'd like just a polar chart, colored to indicate the ratings

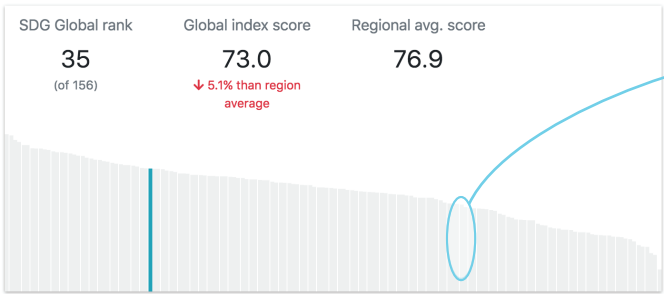

Performance by indicator cards (15 cards per State)

## CALIFORNIA

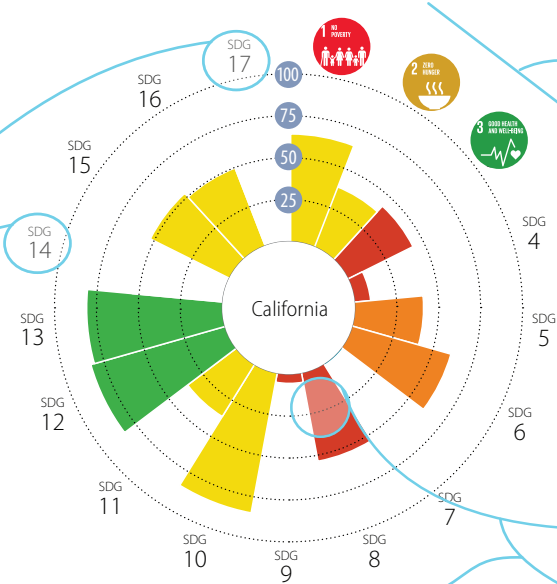

**Hovering** on a State will give name, overall score and rank

**Clicking** on a State will switch to page for that State. (50 x State pages)

**Hovering** on a bar will give name, overall score and rank for that State

**Clicking** on a bar will switch to page for that State. (50 x State pages)

Could the polar chart include the icons and labels for each SDG?

These dont need to be coloured, just black/grey and white

**Hovering** on a segment will give the State's score for that segment

**Clicking** on a segment will change the Performance by indicator card presented below

Performance by Indicator

<b>14</b> LIFE BELOW WATER	Life below water	49.7
Score		49.7
Marine sites, mean protected area (%)		38.3
Ocean Health Index - Biodiversity (0-100)		84
Ocean Health Index - Clean waters (0-100)		74.7
Ocean Health Index - Fisheries (0-100)		54.7
Fish stocks overexploited or collapsed (%)		30.1
Fish caught by trawling (%)		44.4

NOTE: the country pages will also need links to SDG pages.
